

# Prompt Writing for AI

## Before you start:

Treat it like a real person. Feel like you're in a conversation.

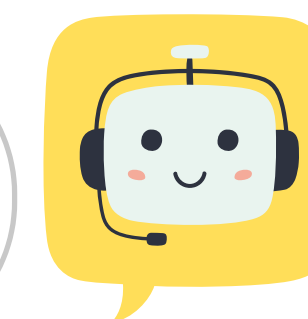

Choose the correct verbs; **"Explain..., Give examples of..., List..., Create..., Prepare..., Act as a..."**

Be specific and give as many details as possible.

Don't be afraid of rephrasing.

Provide as much context as possible about the target audience.

Provide examples about what you expect as an output or the examples of undesired output.

# Prompt Writing for AI

**Decide whether the following prompts are “good” or “weak”.  
Discuss what makes you think so?**

- I will cook dinner. Do you have any suggestions?
- Describe how the Renaissance affected art.
- Acting as a professional home cook, for a vegetarian friend and has a few hours to prepare dinner, could you recommend a recipe including ingredients and step by step instructions?
- Give me a blog topic about food.
- I want to go on a holiday with my family. My kids love swimming in the pool and I like sightseeing. Where should I go?
- I need a 5 day family trip to Rome with a focus on child-friendly activities, can you create a holiday plan including daily schedules and accommodation suggestions?
- Explain the term “Democracy” like I’m dumb.
- I’m introducing a multifunctional smart home device on my tech store that integrates with various home systems, offers voice recognition, and has energy saving features. I want a product description that communicates its advanced technology, user-friendliness, and the convenience it brings to daily life. Can you help?
- Describe “Wifi” as if you’re explaining it to your grandma using “push button phone”.
- What tools can I use to edit my videos professionally?
- What’s the closest pharmacy to my current location?
- What is the most important thing to take away from this lecture in one sentence?
- Imagine you are a time traveler from the 28th century. Describe the technological advancements that exist in your time.”
